Certificate IV in Project Management Practice

BSB40920

LEARN ESSENTIAL PROJECT MANAGEMENT SKILLS AND CONTRIBUTE TO A SUCCESSFUL WORKPLACE PROJECT OUTCOME

Formal, structured project management training is an essential tool to ensure that you are able to contribute to the success of a workplace project. The Certificate IV in Project Management Practice addresses all key topics for successful project implementation such as scope and time management, cost management and resource management. Select your choice of business electives to tailor your program.

Learn to Apply Key Processes

The Certificate IV in Project Management Practice is the ideal course for those without formal project management training. You will learn the jargon and techniques and be able to apply the key processes of project management needed for quality and risk management. This suits those new to project management who wish to learn this specialist field.

Subject Choices

- Define the Project Scope and Schedule
